

3. THE WEATHER

There are many different kinds of weather.
The wind may be blowing.
The air could feel cold or warm.
Sometimes it rains or snows.
Sometimes the sun is shining.

**Listen to this poem.**

Climate is weather
All the year 'round.
It's sunshine and clouds
And rain falling down.

There's snow in the winter,
Spring sun's warming rays,
Sizzling summer
And crisp autumn days.

The Earth has four seasons.
Let's keep it that way.
So our children can love
All the seasons some day.

Who Has Seen the Wind?
