Powerful Curriculum for Today’s Christian Schools
WHO WE ARE AND WHAT WE BELIEVE

Our Mission Statement
Driven by a passion to inspire, AOP equips students for the future by promoting academic excellence and Christian values.

Our Vision
Changing education for the glory of God.

Our Mission
Educate, inspire, and change lives.

For over 40 years, Alpha Omega Publications has been developing innovative Christian curriculum and providing outstanding support services. Founded by curriculum developers and writers in 1977, AOP was born from a vision to provide high-quality and Christ-centered educational materials in a fast-growing Christian school movement. Today, AOP serves over 1,100 Christian schools around the world.

1977
Alpha Omega Publications was formed.

1978
LIFEPAC was born.

1992
Horizons debuted with its first two acclaimed math courses.

1995
LIFEPAC gained color.

1997
AOP released Switched-On Schoolhouse on CD-ROM.

2008
AOP launched Ignitia online curriculum.

2015
AOP introduces professional development for Christian school teachers.

2018
AOP professional development courses earn ACSI approval for continuing education.
WHY WE ARE DIFFERENT

Every student is uniquely created by the Lord in His own image.

At Alpha Omega Publications, we recognize students as individuals who are blessed with specific talents and created to glorify God. Because of this ardent belief, we acknowledge every student learns differently, according to his or her own learning style. Therefore, Alpha Omega Publications designs various lesson formats based on the Bible, so your Christian school can match lessons to the way your students learn best.

Multiple Lesson Formats

Discover a variety of lesson formats created to engage and inspire students to learn. AOP offers print and online lessons, as well as our Alliance Program through Alpha Omega Academy. AOP creates original, interactive lessons for each curriculum format, maximizing usability and learning enjoyment.

Innovation through Presentation

AOP is proud of our reputation as the innovative technology leader in Christian education. This reputation comes from the forward-thinking curriculum we design. Every lesson, whether digital or print, is hand-crafted with precision to amplify student engagement while holding true to a proven, successful pedagogy.

Built on God’s Word

Because the Earth is the Lord’s and everything in it, AOP integrates a Christian worldview and Bible verses into every subject we create, giving students a clear view of the interconnectedness of God’s creation and fulfilling our mission to “educate, inspire, and change lives.”

"We decided on Alpha Omega Publications to provide the curriculum foundation for our school. We felt that AOP would give our school the educational stability we needed while giving us the flexibility to create the community Christian school the Lord had led us to start.

Administrator, Berean Christian Academy"

LEARNING OPTIONS

More than just a curriculum provider, AOP provides your teachers, administrators, and students with personalized support to give your students the best educational experience available.

**Ignititia**

Grades 3 - 12
Online curriculum
Accessible 24/7
Over 50,000 multimedia elements

Ignititia offers time-saving administrative tools like automatic grading and lesson planning, individualized lesson plan options, an internal messaging system, and streamlined data management. The five main subjects of Bible, history and geography, language arts, math, and science are available, as well as over 140 diverse electives.

See p. 5-6

**Alpha Omega Academy**

Grades K - 12
Full accreditation, online learning
Qualified teachers
Dual credit college courses

Expand your school’s course offerings quickly and easily with the AOA Alliance Program. Allow students to be enrolled at your Christian school while simultaneously taking courses through our fully accredited Alpha Omega Academy. The academy provides distance learning teachers, academic assistance, report cards, transcripts, and flexible enrollment to fit the individual needs of your students and school.

See p. 7-8

**Horizons**

Grades PreK - 12
Colorful workbook curriculum
Engaging, hands-on lessons
Spiral learning method

Using a method of quick concept introduction, frequent review, and reinforcement, Horizons Math and Language Arts courses ground students in essential fundamentals. Courses include physical education (PreK-12), phonics and reading (K-3), spelling and vocabulary (1-3), math (K-8), health (K-8), and penmanship (1-6), as well as three and four-year-old preschool programs.

See p. 9-10

**LIFEPAC®**

Grades K - 12
Colorful print curriculum
Textbook and workbook lessons
Mastery-based learning

Combining textbook and workbook lessons into “worktext” units, this time-tested print curriculum for grades K-12 conveniently coordinates lessons, illustrations, exercises, projects, reviews, and tests. A series of ten worktexts equals a full year of curriculum. The five main subjects of Bible, history and geography, language arts, math, and science are available, as well as 14 electives.

See p. 11-12

CHOOSE YOUR EDUCATIONAL APPROACH

BLENDING LEARNING
Mix the perfect combination! Christian schools are increasingly integrating technology into their learning programs. With AOP, there is no need to build courses from the ground up. Teachers can easily mix and match face-to-face courses with 21st century technology. For example, add lecture time to Ignitia or include online supplements with LIFEPAC or Horizons.

ACCELERATED LEARNING
Encourage achievement! In every school, certain students are looking for more information, a faster pace, and bigger challenges. Self-motivated and goal-directed, these students choose to reach beyond the standard benchmarks. With AOP curriculum, these students have the learning space they need to grow and thrive. Our courses can be paced and customized with additional content to inspire these students and keep them engaged.

SUMMER SCHOOL
Expand students’ options! Great for growing your enrollment and increasing revenue, AOP curriculum is perfectly suited for summer school programs or interim courses. Customizable lessons allow teachers to choose content along with start and end dates, and the online convenience of Ignitia means lessons don’t have to be held in a classroom.

ONLINE COURSES
Present new possibilities! Around-the-clock online accessibility provides a practical solution for students who are unable to attend school in a traditional classroom. Ignitia’s online courses include challenging lessons and automatic assessment to keep those students focused and on course for academic success. In addition, the Alliance Program through Alpha Omega Academy helps your school offer more courses without adding staff.

INDIVIDUALIZED SUPPORT
Keep students on track for graduation! AOP curriculum offers interactive lessons that engage students and support retention of key concepts. In Ignitia, relevant Internet links encourage self-directed, real-world learning to promote academic exploration and creative discovery. 24/7 access with Ignitia also allows students to work anywhere at any time, an ideal solution for students whose schedules or personal circumstances hinder attendance.

Contact an educational specialist at 877-688-2652.
Online Curriculum for Grades 3–12

Watch your students grow with Ignitia! Bible-based courses include the five main subject areas of Bible, history and geography, language arts, math, and science, as well as over 140 electives. Available 24/7, Ignitia courses are accessible from any computer with a high-speed Internet connection.

Ignitia offers mastery-based lessons, assignments, quizzes, and tests. The lessons include more than 50,000 multimedia elements like interactive games, audio and video clips, external web links, and off-computer assignments. In addition, time-saving tools for teachers include automatic grading and lesson planning, individualized lesson planning, real-time curriculum updates, a convenient internal messaging system, and streamlined data management for easy reporting.

"You log in and it’s like, ‘Wow!’ Everything is right there. It’s organized. I was so used to having like four textbooks and 30 different notebooks."

Student,
Fairfield Christian School

The Alliance Program through AOA

Today, Christian educators face the challenge of providing a quality, Christ-centered education that offers the options students need. If you are feeling limited by facilities or staff budgets, consider the Alliance Program through Alpha Omega Academy, an accredited online school.

With AOA Alliance, your students in grades 3-12 can be enrolled at Alpha Omega Academy and your Christian school at the same time. By becoming a partner school, you can instantly expand your school’s course offerings with AOA courses, offer more grade levels, and expand services without adding extra teachers or paying high administrative costs.

Alpha Omega Academy acts as an extension of your school to broaden your offerings and works with administrators and teachers to ensure students enroll in the correct courses and receive the credits they need to graduate and move forward into college or an exciting career.

With the use of Ignitia online curriculum, AOP’s partner schools have access to experienced teachers, grading and academic assistance, student progress records, and full-time or part-time enrollment options. In addition, your school can enroll one student, one class, or your whole school.

Administrative Benefits of AOA Alliance

- Expand enrollment options, such as adding elementary or high school courses.
- Offer course credits through an accredited institution.
- Engage students with Ignitia online courses.
- Instantly add more courses without adding teachers.
- Enjoy hassle-free recordkeeping and paperwork, completed by AOA staff.

Visit us online at aopschools.com
In partnership with respected Christian universities, AOA offers full-time juniors and seniors the opportunity to earn high school and college credit simultaneously. AOA’s dual credit program prepares students for the rigors of higher education while learning from a Christian worldview.

Uniquely qualified to teach in an online environment, AOA teachers are experts in their specific subject areas. Caring teachers can easily be accessed for 1-on-1 student support by phone, instant chat (if using Ignitia), and email.

Alpha Omega Academy has educated thousands of students and is accredited by the North Central Association Commission on Accreditation and School Improvement (NCA CASI), an accrediting division of AdvancED, and the Association of Christian Schools International (ACSI).

There’s no need to wait to enroll at AOA. With multiple start dates each month, you can choose the best start date for you. You can also choose from selective enrollment, which allows you to enroll either one student, one class, or your whole school.

Flexible Schedules
Because AOA curriculum works for your school 24/7, you can create an individualized approach for students based on their specific needs. With AOA, the student can come to your school, or you can take your school to the student.

About Alpha Omega Academy
Alpha Omega Academy is fully accredited internationally by the Association of Christian Schools International (ACSI) and regionally by the North Central Association Commission on Accreditation and School Improvement (NCA CASI), an accrediting division of AdvancED, the world’s most trusted and recognized accrediting organization, representing over 36,000 schools. AOA Alliance gives students courses through an accredited program, helping them transfer credits, apply for federal grants, and pursue admission to colleges or universities while still being enrolled at your Christian school.

Horizons Curriculum for Grades PreK–12

Horizons is a colorful print curriculum that uses a spiral learning method of quick introduction, review, and reinforcement to ground students in essential fundamentals and help them easily memorize concepts through repetition. Courses include phonics and reading, spelling and vocabulary, penmanship, and math, as well as three and four-year-old preschool programs. Physical education and health also are available as electives.

Rooted in the Bible, Horizons is well-known for its eye-appealing content, hands-on activities, and solid results of student comprehension. Students use workbooks with removable pages, and a test is generally administered after every ten lessons. Fun, hands-on activities that coordinate with lesson concepts are included in the teacher’s guides. The easy-to-use guides also include daily planners, lesson schedules, clear objectives, and answer keys.

As the tides of new curriculum philosophies rise and fall and education specialists reach for the newest and most innovative techniques to connect with young minds, it is ironic that AOP has used a foundational method of teaching and learning to form the curriculum of the 21st century.

Superintendent,
Cedar Park Christian Schools

Visit us online at aopschools.com
Wow! This is a great program! The Horizons Preschool curriculum introduces knowledge and skills all at the appropriate time. It has been very well thought out.

Teacher, Maranatha KinderPrep

Worktext Curriculum for Grades K–12

LIFEPAC is a colorful print curriculum with Bible-based content for grades K–12. Integrating Scripture passages to help students connect daily learning to biblical truth, LIFEPAC is available in the five main subjects of Bible, history and geography, language arts, math, and science, as well as 14 electives. The curriculum uses mastery-based learning, so students master the concepts and content in each unit before progressing further.

Combining textbook and workbook lessons into “worktext” units, LIFEPAC conveniently coordinates lessons, illustrations, exercises, projects, reviews, and tests. Ten LIFEPAC worktexts provide one full year of a course. Individual worktexts take approximately three to four weeks to complete, giving students a motivating sense of accomplishment as they complete each worktext. Teacher’s guides are available with a curriculum overview, lesson objectives, additional activity ideas, and answer keys.

Alpha Omega Publications has a proven track record of instilling Bible-based virtues into the hearts and minds of students. The outstanding educational benefits to multiple graduating classes are clear. College and career choices have abounded as have test scores.

“Pastor,
Calvary Apostolic Academy

Visit us online at aopschools.com
Several years ago, we began to look for a curriculum that offered high academic content while maintaining a strong Christian perspective. It was our objective to raise our students’ national standardized test scores in every subject. Since switching to AOP, we have seen a very positive progression. Scores are up, and parents are happy.

Assistant Director, Monarch Christian Academy

CHRISTIAN SCHOOL SUPPORT SERVICES

It takes a team to run your Christian school. That’s why Alpha Omega Publications provides your teachers, administrators, and students with personalized support to give your students the best educational experience available.

School Education Consultant
To simplify the process for your Christian school, Alpha Omega Publications selects a specific education consultant to be your school’s point of contact for all your needs. By using this support strategy, your hand-picked education consultant already knows the background of your school and can quickly assist you whenever you need support or have questions. Your school is given your education consultant’s direct phone number and email address, so he or she is always just a call or click away.

In addition, your education consultant checks in throughout the year to see how curriculum and services are working for your Christian school. These periodical follow-ups help AOP build a personal relationship with your school and make it more convenient for your staff to relay ideas and needs to AOP.

To learn who your education consultant is or have one assigned to your Christian school, call 877-688-2652.

Technical Support
When you need assistance, our responsive service representatives provide productive and focused support. Available Monday through Friday from 8 a.m. to 5 p.m. (CT), knowledgeable technical specialists are ready to address hardware, network, and Internet connection challenges via email or phone.

Through aop.com/schools/support/ignitia-resources, Christian schools also have access to valuable resources like quick start guides and video tutorials.

I was introduced to AOP as a means of expanding our course offerings. AOP allows us to address each student individually without the costs associated with traditional programs. It also allows us to offer a course as needed and work with a student who wants to accelerate his education. We continue to find new exciting ways we can utilize this program.
