

# Faith Christian Academy

## Small Christian School Gets Second Chance with Ignitia

After closing down in 2006, a Christian school in southeastern Texas is experiencing rapid growth after reopening its doors with Ignitia online curriculum in 2011. Familiar with other AOP curriculum, Principal Deborah Lisenby knew Ignitia was the way to go when she set out to reestablish the school. Since 2011, Faith Christian Academy has constructed and outgrown a new facility, experiencing a 52 percent enrollment increase. The Christian school is now home to 43 students, 5 teachers, and 6 support staff.

## At-a-Glance School Profile

**Location:** Vidor, TX

**Established:** 1989

**Enrollment:** 43

## How Ignitia Helped FCA

- **Automatic Grading.** Teachers at FCA enjoy the time-saving automatic grading feature within Ignitia, which allows them to focus more intently on each individual student's needs.
- **Media-rich Content.** Principal Lisenby notes that the engaging, online curriculum incorporates educational videos and other media directly into the online lessons, bringing learning to life for students.
- **User-friendly.** Teachers, students, administrators, and parents at FCA find Ignitia online curriculum easy to operate.
- **Outstanding Technical Support.** FCA staff members feel comfortable reaching out to AOP's helpful and friendly technical support staff in times of need.
- **Frequent Updates.** As AOP updates Ignitia with feedback from the Christian schools it serves, FCA has the freedom to expand course offerings and enhance the learning experience for students at the school.

*The multimedia advantage of Ignitia is the most beneficial feature for our students. It gives them an opportunity to hear historical speeches or watch videos within their lessons, and that seems to bring reality to the student's learning experience.*

— Deborah Lisenby, Principal
