PLACEMENT TEST for the LIFEPAC CURRICULUM

History & Geography 700 – 1200

Instructions

This test is designed to aid the teacher or parent in proper placement of the student into the LIFEPAC curriculum. It has two sections: the Student Test and the Answer Key. The Answer Key follows the Student Test.

This is not a timed test and the student should be given an opportunity to answer each question adequately. If the student becomes bogged down and the test seems too difficult, skip to the next section. If the test is still too difficult, this child's academic skill level has been reached and testing may stop. Each test level should take no longer than one hour.

Testing should begin approximately two grade levels below the student's current or just completed grade level. For example, a student entering tenth grade [1000] should begin testing at the eighth grade [800] level. This allows for proper grade level placement as well as identification of any learning gaps that the student may have.

Once the test has been administered, it is ready to be scored. The teacher or parent does all of the scoring. **Each section has 10 numbered questions. Each numbered question equals one point.** Use the Answer Key to mark all incorrect answers on the Student Test. Next, record the total number of **correct** answers in the box beneath the LIFEPAC number in the right hand column. **When all tests have been graded, transfer the number correct by LIFEPAC to the Student Placement Worksheet on the back page of the Answer Keys.** Then add the total number of points per grade level.

| Test | Level | Test | Level |
|-----------|-------|-------------|-------|
| 701 – 710 | 7 | 1001 – 1010 | 10 |
| 801 – 810 | 8 | 1101 – 1110 | 11 |
| 901 – 910 | 9 | 1201 – 1210 | 12 |

- 1. Man was created to have and enjoy _____.
 - a. fellowship
 - b. things
 - c. the world
 - d. happiness
- 2. A document or evidence that is from the same time as the historical subject being studied is a _____.
