PLACEMENT TEST for the LIFEPAC CURRICULUM

LANGUAGE ARTS 100-800

Instructions

This test is designed to aid the teacher or parent in proper placement of the student into the LIFEPAC® curriculum. It has two sections: the Student Test and the Answer Key.

This is not a timed test and the student should be given an opportunity to answer each question adequately. If the student becomes bogged down and the test seems too difficult, skip to the next section. If the test is still too difficult, this child's academic skill level has been reached and testing may stop. Each test level should take no longer than one hour.

Testing should begin approximately two grade levels below the student's current or just completed grade level. For example, a student entering fifth grade should begin testing at the third grade level. (See Below.) Of course, a second grader could not test below the first grade level. This allows for proper grade level placement as well as identification of any learning gaps that the student may have.

The proper placement of a student occurs in two steps. First, there is a diagnosis of skill mastery and second, an establishment of reading level. The student begins by completing the skill mastery part of the test which covers LIFEPACs one through nine. The tenth LIFEPAC is not always tested because it reviews material covered in the preceding LIFEPACs. When the mastery portion of the test is completed, the student should be given the list of words. The words can be read from either the Answer Key or the Reading List. Have the student read the list that corresponds to the grade level of the mastery test that he has just completed. As the student reads the list of words aloud, the test administrator should put a check mark on the Student Test by each word that the student mispronounces.

Once the test has been administered, it is ready to be scored. The teacher or parent does all of the scoring. **Each section has 10 numbered questions. Each numbered question equals one point.** Use the Answer Key to mark all incorrect answers on the Student Test. Next record the total number of **correct** answers in the box beneath the LIFEPAC number in the left hand column. **When all tests have been graded, transfer the number correct by LIFEPAC to the Student Placement Worksheet.** Then add the total number of points per grade level.

Test	Level	Test	Level
101 - 110	Level 1	501 - 510	Level 5
201 - 210	Level 2	601 - 610	Level 6
301 - 310	Level 3	701 - 710	Level 7
401 - 410	Level 4	801 - 810	Level 8

There are ten possible points per section. Put all answers on the blanks to the right of the questions unless instructed to do otherwise.

FIRST GRADE TEST ADMINISTRATORS: Test administrators may assist students in reading instructions when necessary; however, care should be taken as too much support may alter test results. Questions requiring the student to read words orally may be scored immediately. Each question equals one point. There are ten possible points per section. Put all answers on the blanks to the right of the questions unless instructed to do otherwise.
