PLACEMENT TEST for the LIFEPAC CURRICULUM

LANGUAGE ARTS 100-800

Instructions

This test is designed to aid the teacher or parent in proper placement of the student into the LIFEPAC® curriculum. It has two sections: the Student Test and the Answer Key.

This is not a timed test and the student should be given an opportunity to answer each question adequately. If the student becomes bogged down and the test seems too difficult, skip to the next section. If the test is still too difficult, this child’s academic skill level has been reached and testing may stop. Each test level should take no longer than one hour.

Testing should begin approximately two grade levels below the student’s current or just completed grade level. For example, a student entering fifth grade should begin testing at the third grade level. (See Below.) Of course, a second grader could not test below the first grade level. This allows for proper grade level placement as well as identification of any learning gaps that the student may have.

The proper placement of a student occurs in two steps. First, there is a diagnosis of skill mastery and second, an establishment of reading level. The student begins by completing the skill mastery part of the test which covers LIFEPACs one through nine. The tenth LIFEPAC is not always tested because it reviews material covered in the preceding LIFEPACs. When the mastery portion of the test is completed, the student should be given the list of words. The words can be read from either the Answer Key or the Reading List. Have the student read the list that corresponds to the grade level of the mastery test that he has just completed. As the student reads the list of words aloud, the test administrator should put a check mark on the Student Test by each word that the student mispronounces.

Once the test has been administered, it is ready to be scored. The teacher or parent does all of the scoring. Each section has 10 numbered questions. Each numbered question equals one point. Use the Answer Key to mark all incorrect answers on the Student Test. Next record the total number of correct answers in the box beneath the LIFEPAC number in the left hand column. When all tests have been graded, transfer the number correct by LIFEPAC to the Student Placement Worksheet. Then add the total number of points per grade level.

There are ten possible points per section. Put all answers on the blanks to the right of the questions unless instructed to do otherwise.
FIRST GRADE TEST ADMINISTRATORS: Test administrators may assist students in reading instructions when necessary; however, care should be taken as too much support may alter test results. Questions requiring the student to read words orally may be scored immediately. Each question equals one point. There are ten possible points per section. Put all answers on the blanks to the right of the questions unless instructed to do otherwise.

READ
This section tests the student’s ability to recognize and pronounce 8th grade level words that have been selected from standard word lists and vocabulary words in the LIFEPAC booklets.
The student should read the list of words aloud.
The test administrator should put a check mark by each word that the student mispronounces.

___capacious  ___immaculate  ___remarkably  ___inducement
___limitation  ___ascent  ___exuberant  ___articulate
___pretext  ___acrid  ___procession  ___proposition
___intrigue  ___binocular  ___content  ___deprecate
___delusion  ___embankment  ___subside  ___grotesque

Starting with the number 10, deduct one point for each word that is mispronounced. Put that number in the box below the word READ.
(Students who miss 10 or more words will have a score of zero.)

GRADE LEVEL PLACEMENT: A student can be placed academically using the rule that they have successfully passed the test for any given level if they achieve a **Total Score of 70 points or more.**

This student places at grade level ____________________.

LEARNING GAPS: Learning gaps can be easily identified with the placement test. If a student receives **points of 6 or less** on any individual test, they have not shown mastery of the skills in that particular LIFEPAC. If desired, these LIFEPACs may be ordered and completed before the student begins their assigned grade level curriculum.

Learning gap LIFEPACs for this student are _______ _______ _______ _______ _______ _______ _______ _______

READING LEVEL: Students should be placed at their instructional reading level in Bible, science, and history & geography. The purpose of the Read test is to quickly determine this reading level. Although no test is absolute, the READ Test is a good indication of the match between the student’s ability to read and the ability to handle the LIFEPAC curriculum. A score of **6 to 10** on the Read test indicates the student’s instructional level or the level at which the student would be most successful in the LIFEPAC curriculum. Based on the scores from the READ portion of the grade level test, this student would work most independently at the _____ level.

**Note:** The above placement for reading level is based solely on the READ test. Other factors that may be considered are the student’s last grade completed and scores on Standardized Achievement Tests. It is not unusual for a student to place at more than one level in various subjects when beginning the LIFEPAC curriculum. For example, a student may be placed at 5th level in Bible, math, science, and history & geography but 4th level in language arts. The majority of school time should be concentrated on the areas of lower achievement with the ultimate goal of equal skill mastery in all subjects at the same grade level.
