INSTRUCTIONS FOR LANGUAGE ARTS

The LIFEPAC curriculum from grades two through twelve is structured so that the daily instructional material is written directly into the LIFEPACs. The student is encouraged to read and follow this instructional material in order to develop independent study habits. The teacher should introduce the LIFEPAC to the student, set a required completion schedule, complete teacher checks, be available for questions regarding both content and procedures, administer and grade tests, and develop additional learning activities as desired. Teachers working with several students may schedule their time so that students are assigned to a quiet work activity when it is necessary to spend instructional time with one particular student.

Language arts includes those subjects that develop students’ communication skills. The LIFEPAC approach to combining reading, spelling, penmanship, composition, grammar, speech and literature in a single unit allows the teacher to integrate the study of these various language arts subject areas. The variety and scope of the curriculum may make it difficult for students to complete the required material within the suggested daily scheduled time of forty-five minutes. Spelling, book reports and various forms of composition may need to be completed during the afternoon enrichment period.

Cursive handwriting is introduced in the second grade LIFEPAC 208, with regular practice following in subsequent LIFEPACs. Diacritical markings are defined in the third grade LIFEPAC 304. A pronunciation key including diacritical markings is provided after the vocabulary word lists in all subjects beginning with LIFEPAC 305.

This section of the language arts Teacher’s Guide includes the following teacher aids for each unit: Suggested and Required Material (supplies), Additional Learning Activities, Answer Keys, Alternate LIFEPAC Tests, and LIFEPAC Spelling Tests.

Spelling tests contained in the Teacher’s Guide are final spelling tests and should be administered with each Language Arts LIFEPAC test. Many words such as “piece” and “peace” are dependent on meaning for correct spelling. By placing the spelling words in sentences, the spelling tests simplify the teacher’s work of properly presenting the correct words from the LIFEPAC spelling lists. The practice spelling tests in each section of each LIFEPAC should be designed by the teacher and are not included in this Guide.

The materials section refers only to LIFEPAC materials and does not include materials which may be needed for the additional learning activities. Additional learning activities provide a change from the daily school routine, encourage the student’s interest in learning and may be used as a reward for good study habits.
