PROBABILITY, UNITS, AND SHAPES

This entire unit is a review of the concepts that have been covered in this course. Some of the concepts will be expanded slightly and applied to new situations. Addition, subtraction, and rounding of whole numbers will be reviewed. There will be additional practice in the addition and subtraction of fractions and mixed numbers. You will learn how to express probability as a fraction, how to make two sides of a problem equal, and how to solve problems with parentheses. The multiplication facts studied up to this point will be reviewed. In this LIFEPAC®, you will also practice the skills of perimeter, area, time, Roman numerals, and standard measure.

Objectives

Read these objectives. The objectives tell you what you will be able to do when you have finished this LIFEPAC.

1. I can round numbers to thousands' place.
2. I can estimate addition and subtraction problems to thousands' place.
3. I can add and subtract fractions vertically and horizontally.
4. I can learn more about probability.
5. I can learn about equations.
6. I can learn to make two sides of a problem equal to each other.
7. I can learn to use parentheses in two-step problems.
8. I can study the relationship between perimeter and area measurement.

1. WHOLE NUMBERS AND FRACTIONS

To start this unit, you will review rounding and counting by tens and hundreds. You will find sensible answers and work some word problems. You will also practice adding and subtracting fractions.

Multiples and Rounding

Complete the following activities.

1.1 Count by tens. Write the numbers.
 10, _____, _____, _____, _____,
 _____, _____, _____, _____

Count by hundreds. Write the numbers.
 100, _____, _____, _____, _____,
 _____, _____, _____, _____

1.2 Round to tens' place or hundreds' place.

47 _____	65 _____	83 _____
249 _____	550 _____	897 _____

NOTE to teachers, parents, and students:

As part of a continuing effort to improve the LIFEPAAC curriculum a new layout of this unit has been produced. The content of this unit has not changed but the page numbers referenced in the Teacher Notes of the Teacher's Guide may no longer match.

We can decide whether or not we have sensible answers.

Complete the following activities.

- 1.3** Round to tens' place or hundreds' place. Add or subtract both problems. Compare. Is your answer sensible?

$$\begin{array}{r} 92 \quad \underline{\quad} \\ + 36 \quad \underline{\quad} \\ \hline \end{array}$$

$$\begin{array}{r} 84 \quad \underline{\quad} \\ + 76 \quad \underline{\quad} \\ \hline \end{array}$$
