## PREFACE

*The Horizons For Three's Student Workbook Companion* contains activities to help the student in skill development. Each Horizons Preschool For Three's lesson includes four worksheets in the *Student Workbook* along with one worksheet on heavier stock that is in this book. Some of the worksheets in this book have an activity that is designed to be repeated by the student throughout the lesson as well as beyond.

The abilities of a three-year-old student will vary greatly. Some will be able to write, trace, and color. Others will not or as they move forward in the course their motor skills will develop. The expectations for what a student is able to do on each of the worksheets should fit their abilities. Some of the matching activities might have to be completed orally or dotted lines can be drawn on the page for the student to trace. Some students will be able to use a pencil but for most a crayon might be best.

The most important thing is to make the learning experience fun and enjoyable.
