

Are you still using textbooks?

MANY CHRISTIAN SCHOOLS HAVE DISCOVERED IGNITIA'S ADVANTAGES OVER PAPER TEXTBOOKS. IF YOUR STUDENTS AREN'T YET ENJOYING THE BENEFITS OF AN ONLINE CURRICULUM, WE CAN HELP.

Cost Effective: Significant savings can be gained through implementing online curriculum rather than purchasing print textbooks that can't keep up with breaking developments like Ignitia. We give students and educators the most up-to-date materials for smarter learning.

Intuitive: Our clean, inviting student experience features easy-to-use navigation, handy notes tools, inventive day-planning functions, and enhanced flexibility to suit any student's learning style.

Dynamic: Our rigorous curriculum is enhanced by engaging videos, animations, and learning games that result in maximum student involvement and success.

Customizable: You can't rewrite a textbook, but you can easily customize Ignitia. Educators are free to merge course content, create unique material, and use the Teacher Authoring Tool for assessment and remediation integration.

Individualized: Ignitia identifies a student's strengths or weaknesses and automatically administers the curriculum needed to stay on track.

Modern: Most textbooks are not designed to support the latest educational approaches; however, Ignitia is perfect for introducing blended learning and flipped classrooms at your Christian school.
