

Ignitia's Career and Technical Education courses empower students with marketable skills taught from a Christian worldview.

College and career readiness is the goal for every student, and CTE courses help make that happen. Ignitia is at the forefront with more Christ-centered CTE courses in more career clusters than any other provider of online curriculum. The innovative courses promote critical thinking, emphasize problem solving, and prepare students to enter the work force with a faith-based education.

Ignitia's CTE Career Clusters:

- Architecture & Construction
- Arts, A/V Technology, & Communications
- Business Management & Administration
